Course Description

Work Experience and volunteering programmes are designed to help young people and employees working in certain sectors where the use of English is important. These days it is becoming more and more important for people to be able to speak English well in the workplace. This course has two elements. In the mornings, the participants take a general English course designed to help them improve their communication skills in an international setting. In the afternoons or evenings, the participants do work experience as a volunteer in a local charity shop, NGO or similar organisation.
